Yes we have EDD for all RI data. In fact I already delivered the data to Rafael. If you still need it I can supply again next week.

Stephen:

I am curious if you guys still have the Electronic Data Deliverables (EDDs) from the laboratories for every RI sample that was taken on the site? The reason is that we have a program called SCRIBE that can feed a flex viewer to give everyone a picture of the information. This may be an option as a one stop shop for keeping people up to date on the RI data.

Thanks
